Commissioner for Patents

Art Unit: 1724

The communication filed on June 2, 2006 is not deemed to be fully responsive to the Office action dated March 13, 2006 because this communication fails to comply with all of the requirements contained in said Office action.

The previous Office action contains a restriction requirement between groups I and II. The communication filed on June 2, 2006 elects Group II; and therefore, complies with this restriction requirement.

The previous Office action also contains a requirement for Applicant to elect a predetermined operating parameter species. The communication filed on June 2, 2006 elects temperature as the predetermined operating parameter species; and therefore, complies with this election of species requirement.

The previous Office action also contains a requirement for Applicant to list all of the claims readable on the elected species (see page 3, second full paragraph). The communication filed on June 2, 2006 fails to contain such a listing; and therefore, this communication does not comply with this requirement. To be complete, Applicant's response to the previous Office action must include a listing of all claims readable on the elected species (see M.P.E.P. 809.02(a)).

Since the above noted communication appears to be *bona fide*, Applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment of the application. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Art Unit: 1724

The examiner can normally be reached on Monday through Friday from 8:30 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Duane Smith, can be reached at 571-272-1166.
